About Us

KZP is a leading manufacturer specializing in high-quality cookware, renowned for its excellence in both design and durability. With years of experience in the cookware industry, we focus on delivering premium products to international markets. Our commitment to quality and innovation has made us a trusted partner for customers worldwide.

Our Products:

We offer a wide range of cookware, including:

- **Stainless Steel Cookware:** Made from durable stainless steel, our sets feature a polished finish, ensuring durability, even heat distribution, and resistance to rust and corrosion.
- **Non-Stick Forged Aluminum Cookware:** These sets are crafted from forged aluminum for strength and enhanced heat distribution, paired with a premium non-stick coating for easy cooking and cleaning.
- **Innovative Designs:** We focus on ergonomic handles, tempered glass lids, and dishwasher-safe options to offer convenience and performance.

Production & Capacity:

With a production capacity of up to 100,000 units per month, KZP ensures timely and reliable delivery for all customer orders. Our facilities are equipped with modern technology, enabling us to meet diverse market needs and scaling production as required.

Global Reach:

We proudly export to countries such as Russia, the UAE, Lebanon, and Erbil, Iraq. Our products are well-regarded for their quality, making us a preferred choice for retailers and distributors in various regions.

Our Mission:

At KZP, we aim to provide premium cookware that enhances the cooking experience for our customers. We are dedicated to producing durable, functional, and stylish cookware that meets the highest standards of performance.

Let's Collaborate:

We are always open to new partnerships and opportunities. Our team is ready to work with you to meet your business needs and help you expand your product offerings.

Pressure Cooker

Pressure Cooker
Capacity: 6 Liters
Material: Stainless Steel
Weight: 4.5 kg
Dimensions: 28 x 38 x 45 cm

The handles of the Stonic pressure cooker by KZP are made from Bakelite, a heat-resistant material that ensures safe and cool handling during cooking. The ergonomic design allows for comfortable and secure use, even at high temperatures.

The body of this pressure cooker is made from 304 stainless steel with a 1.25 mm thickness, providing excellent strength and resistance to heat and pressure. Its robust design prevents deformation over time and ensures even heat distribution for fast and uniform cooking.

KZP
COOKWARE SET

STONIC

The Stonic pressure cooker features a three-layer forged base that ensures even heat distribution, enabling fast and efficient cooking while providing excellent resistance to deformation.

The process of forging the capsule to the stainless steel body creates a strong and uniform bond using pressure and heat, ensuring even heat distribution and increasing the durability of the cookware. This method enhances the quality and performance of the pot.
